Wheel, Trailer Components
and Automotive Parts Specialists
Since 1911

**NOW
AVAILABLE**

DEF in Returnable Containers

**PART #
TERRDEF55RET**
55 Gallon Drum

Jobber Price Ea.
\$186.33
Core Price Ea.
\$50.00

The returnable drums provide a closed system to prevent possible contamination. Can be mounted on a drum dolly for easy handling and movement. One drum contains enough fluid to carry your fleet for over 16,500 miles or more.

**PART #
TERRDEF330RET**
330 Gallon Tote

Jobber Price Ea.
\$868.86
Core Price Ea.
\$200.00

The most economical package for medium to large fleets this side of bulk shipments. The returnable closed system totes containing the MicroMatic valve can be easily swapped thereby avoiding any possible contamination. All that's required is a forklift to unload. Dispensing options include electric and 12 volt pumps for closed systems and electric, air driven and manual pumps for open systems. These totes deliver enough fluid to carry your fleet up to 99,000 miles.

DIESEL EXHAUST SCR TECHNOLOGY

What is SCR:

- Selective Catalytic Reduction (SCR) Technology uses Diesel Exhaust Fluid (DEF), a solution of UREA and primarily water to reduce NOx emissions to near zero.
- SCR is a well-established, safe technology that is already used in the denoxing of power plants burning fossil fuels.

Advantages of SCR:

- SCR provides better fuel economy
- SCR meets 2010 Vehicle Emission Standards for Diesel Engines
- SCR improves engine lubricant and filter life

Why TerraCair:

- TerraCair is a safe, environmentally friendly solution for SCR
- TerraCair is an Ultra-Pure, formaldehyde free, NOx reducing treatment specifically formulated for diesel engines equipped with SCR systems
- TerraCair meets the stringent AUS 32, DIN 70070, ISO 22241 purity and concentration standards

Terra Environmental Technologies is the only company with a program to fully manage the supply chain from the gas fields to the tank of your vehicle.

That's what we mean when we say, Production to Pump—We Stand Behind Our Product.
