Legendary MPA Fill Rates and Quality

Market intelligence, Product & Category Management Support

Technical Support and Product Training Programs

The Smarter Choice

Quality-Built Brake Calipers are manufactured to meet the demands of professional installers with industry leading application coverage, and unmatched quality

Complete

Installation-ready with everything included in the box for a complete repair, ensuring full restoration and safe vehicle operation.

Perfection

Direct OE replacement parts engineered and manufactured to meet or exceed factory specifications for performance and durability.

Experience

100% End-of-Line verification using proprietary, computer-controlled hydraulic testers ensures leak-free performance right out of the box.

Support

MPA's ASE-certified Part Smart™ technicians are ready to help get you back on the road with answers for any product, installation, or diagnostic questions.

1 Brackets Included

Application specific brackets prevent caliper binding and take the guesswork out of caliper replacement.

2 Rust Prevention

OE style rust preventatives ensure long caliper life and restore factory appearance.

3 100% Tested

Pressure testing checks every seal, bleeder, and line connection for leak-free operation.

4 All New Dust Boots and Seals

EPDM rubber components are more resistant to deterioration caused by extreme temperatures.

5 Hardware Included

Application specific abutment hardware provides correct pad fitment in the caliper body.

6 All New Phenolic Pistons

To ensure maximum durability and reliability all phenolic pistons are replaced.

PART SMART

PartSmart, is a multi-channel resource, diagnostic and training support program designed to help professional technicians and do-it-yourself mechanics diagnose, test and install MPA products with confidence. Available in-person or on-line, Part Smart offers next level knowledge from the pro's.

The Manufactured Again Certification Mark is a recognizable symbol that represents the quality, value and sustainability of a manufacturer's processes. Quality-Built Brake Calipers are remanufactured to meet ISO 9001:2015 / IATF 16949:2016 quality specifications for automotive manufacturers.

CALL BEFORE YOU RETURN!

800-228-9672

ASE Certified Technicians are Standing by 7 days a week

MPA's team of ASE-certified master technicians trained to resolve installation, diagnostic, and application specific questions to help prevent unnecessary returns.

PRW Does:

- Focus on professional customers
- Believe consumers should have their vehicles serviced by professionals
- Provide support programs and business solutions for professional customers only
- Bring professional sales support directly to our professional customers through our, and vendor, outside sales teams
- Spend time and resources rewarding professional customers for supporting the independent distribution channel
- Offer repair parts solutions for ag, trailer, wheel, and tow that assist professionals in expanding their service offerings

PRW Does Not:

- Promote retail automotive parts sales/solutions for what historically have been service customer
- Install wiper blades
- Test charging systems
- Install Batteries
- Scan and reset Trouble Codes
- Build incentives to promote business name other than your own
- Spend time and resources rewarding consumers for bypassing the professional shop
